

## **ELECTRONIC SUBMISSION OF TRANSACTION DATA**

### **IN RE FOREIGN EXCHANGE BENCHMARK RATES ANTITRUST LITIGATION**

#### **I. IMPORTANT INFORMATION – PLEASE READ**

You should only submit transaction data using the process below after you have submitted a claim.

Please note that the electronic submission of transaction data is required for all Claimants choosing Option 2 (documented) claim and/or Claimants who are claiming transactions in FX Exchange-Traded Instruments under either an Option 1 (estimated) or Option 2 (documented) claim. The transaction and documentation requirements for such Claimants are outlined below.

#### **II. TRANSACTION DATA**

- A. Claimants submitting an Option 2 (documented) claim should submit data records of all FX Instruments entered into directly with a Defendant, including but not limited to, FX spot transactions, FX forwards, FX swaps, over-the-counter (OTC) FX options, or other FX transaction in which the trading or settlement value is related in any way to FX rates.

Defendants are: Bank of America, Barclays, BNP Paribas, BTMU, Citigroup, Credit Suisse, Deutsche Bank, Goldman Sachs, HSBC, JPMorgan, Morgan Stanley, Royal Bank of Canada (RBC), Royal Bank of Scotland (RBS), Société Générale, Standard Chartered, and UBS.

- B. Claimants submitting a claim for FX Exchange-Traded Instruments, whether as part of an Option 1 (estimated) claim or Option 2 (documented) claim, must submit all transaction data evidencing transactions in FX Exchange-Traded Instruments.

FX Exchange-Traded Instrument means any and all FX Instruments that were listed for trading through an exchange, including, but not limited to, FX futures and options on FX futures.

#### **III. REQUIRED FILING FORMAT**

- A. General Instructions (required formatting applicable to all files, regardless of transaction type)

**IMPORTANT:** Separate files must be submitted for each type of transaction (e.g., FX spot, FX forwards, OTC FX options, FX swaps, FX futures, and options on FX futures). Separate files are required because the information needed to process your claim varies by type of instrument.

Transaction files must be submitted as comma-separated value (CSV) files and NOT in Microsoft Excel. CSV files can be created in Excel.

All fields in the required format defined for the applicable transaction type must be included in your file.

Any fields that do not apply to your file must be left blank (do not delete any fields).

Your file must include one header row with column headings.

Do not provide any blank rows on your file.

Any files not in accordance with the required format defined for the applicable transaction type are subject to rejection.

Do not submit duplicate trades.

Certain fields are **MANDATORY**. Any mandatory fields are noted as such in the file layouts, below.

- B. Special instructions for trades on ECNs with anonymous execution: If you traded on Electronic Communication Networks (ECNs) (e.g., Currenex, Hotspot, FXALL, EBS, Reuters) that did not always reveal your counterparty's identity, submit all of your data on FX Instruments executed on such ECNs, and the Claims Administrator will apply the Plan of Distribution's "Anonymous ECN Ratio" to your trades.
- C. Special instructions for non-U.S. domiciled Claimants submitting Option 2 claims: If you are domiciled outside of the United States and are submitting an Option 2 claim, you will need to provide either: (i) a field in your transaction data that indicates the location of the defendant bank's desk that booked your trades; or (ii) in the absence of a bank location field, submit all of your data on FX Instruments traded with Defendants (or on an ECN with anonymous execution), and the Claims Administrator will apply the Plan of Distribution's "Location Factors" to your trades.
- D. Required file layouts for each of six different transaction types identified below (FX spot, FX forwards, OTC FX options, FX swaps, FX futures, and options on FX futures)
